

WINTER

SPORTS

Sometimes we have the opportunity to do some swimming in a frozen river

Sometimes we even create snow sculptures during the physical education class.

And sometimes we also do have the time to ski to a fire place and have a sausage.

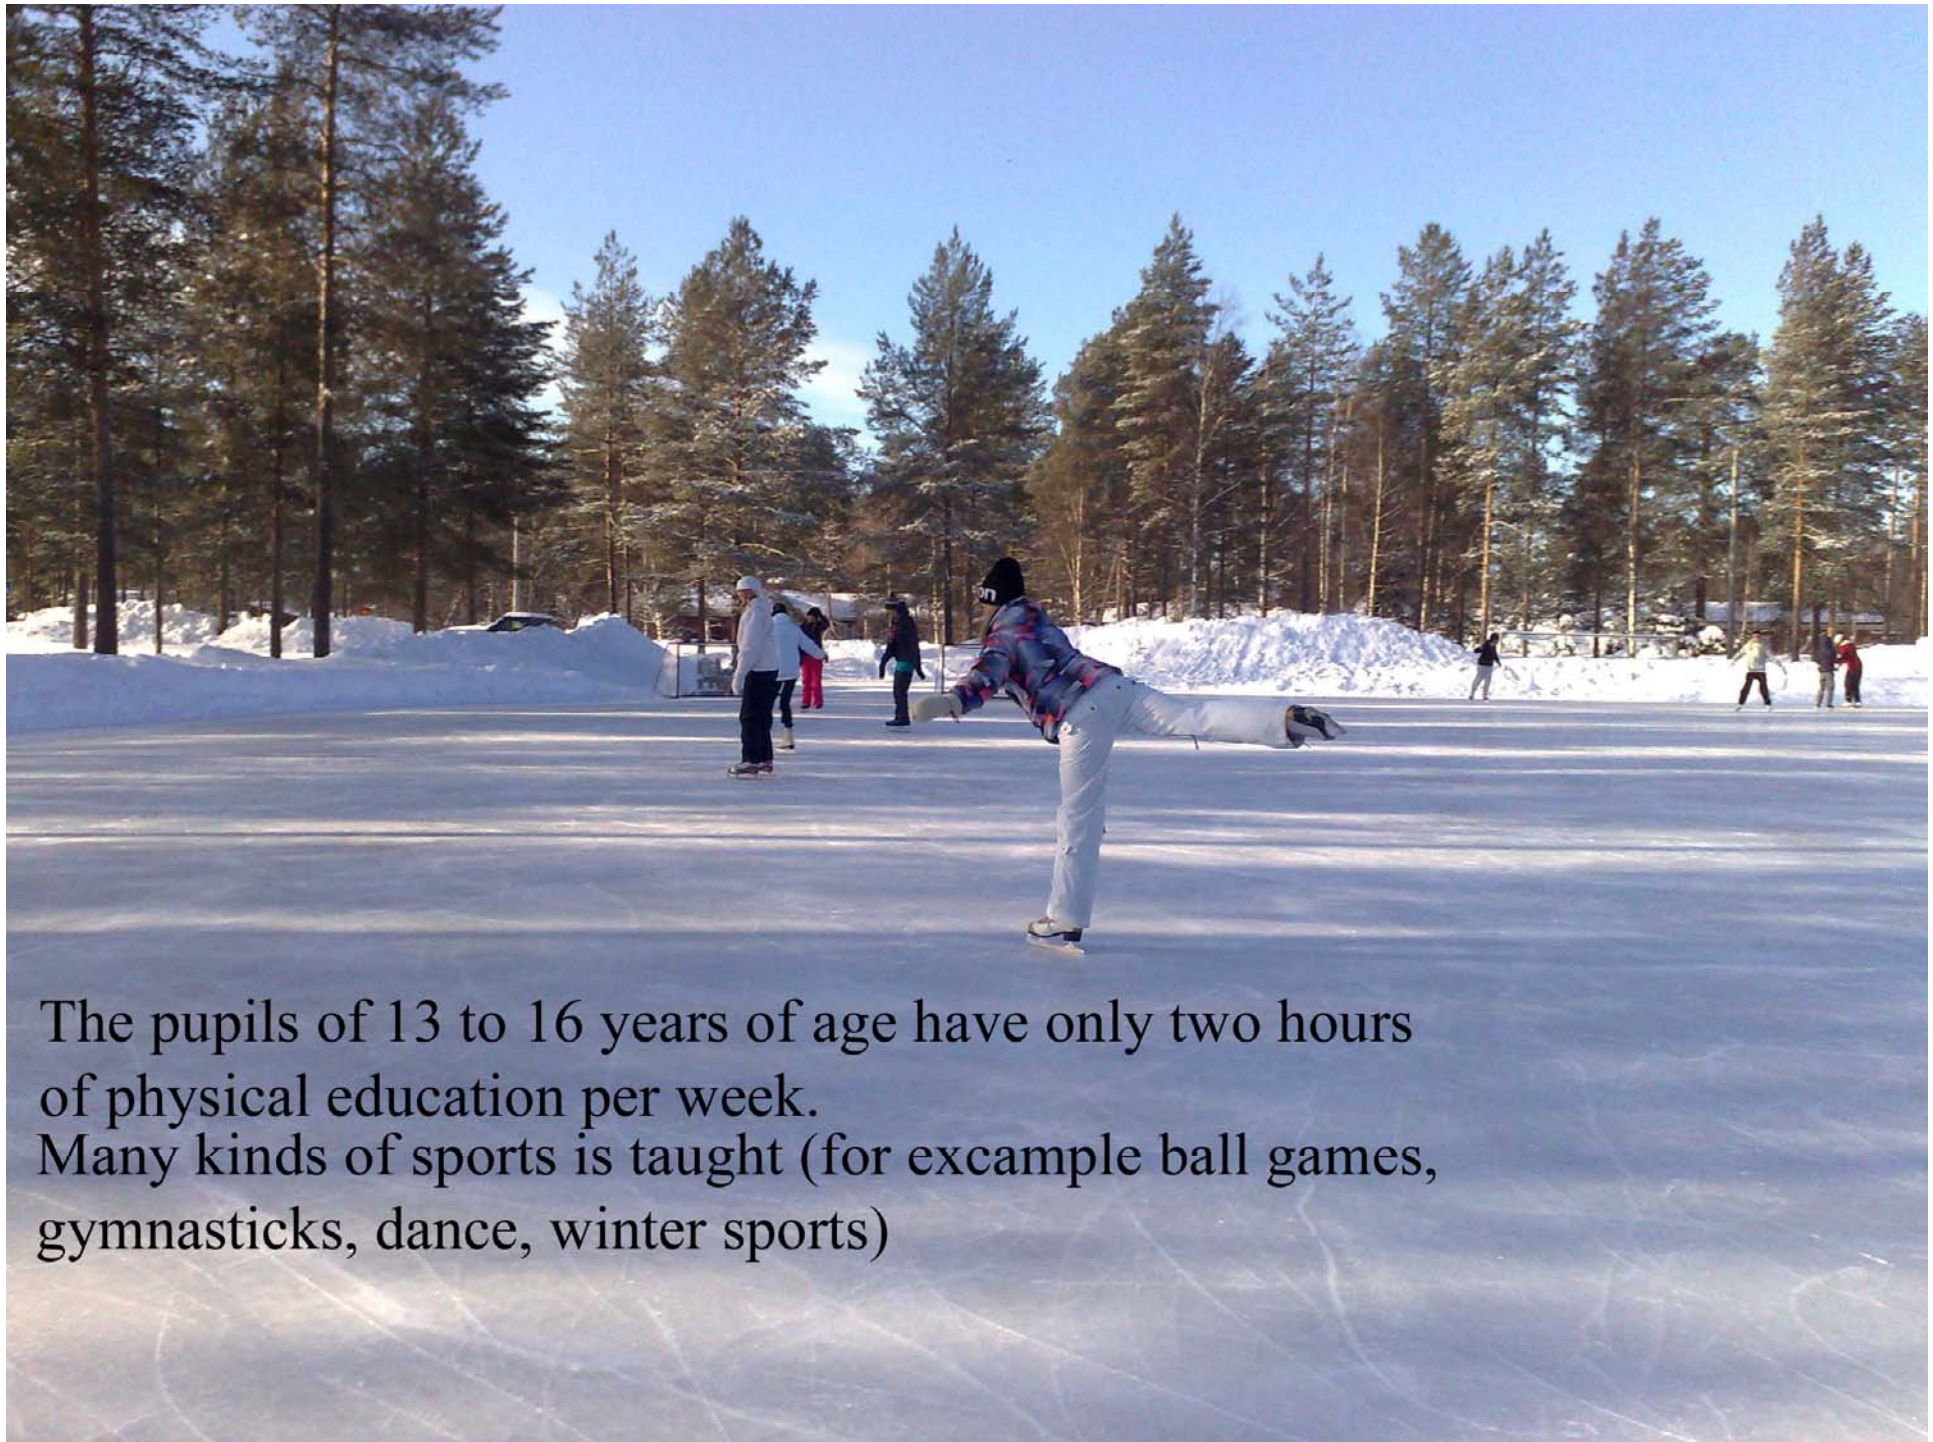

Skiing is one of the winter sports in our school.

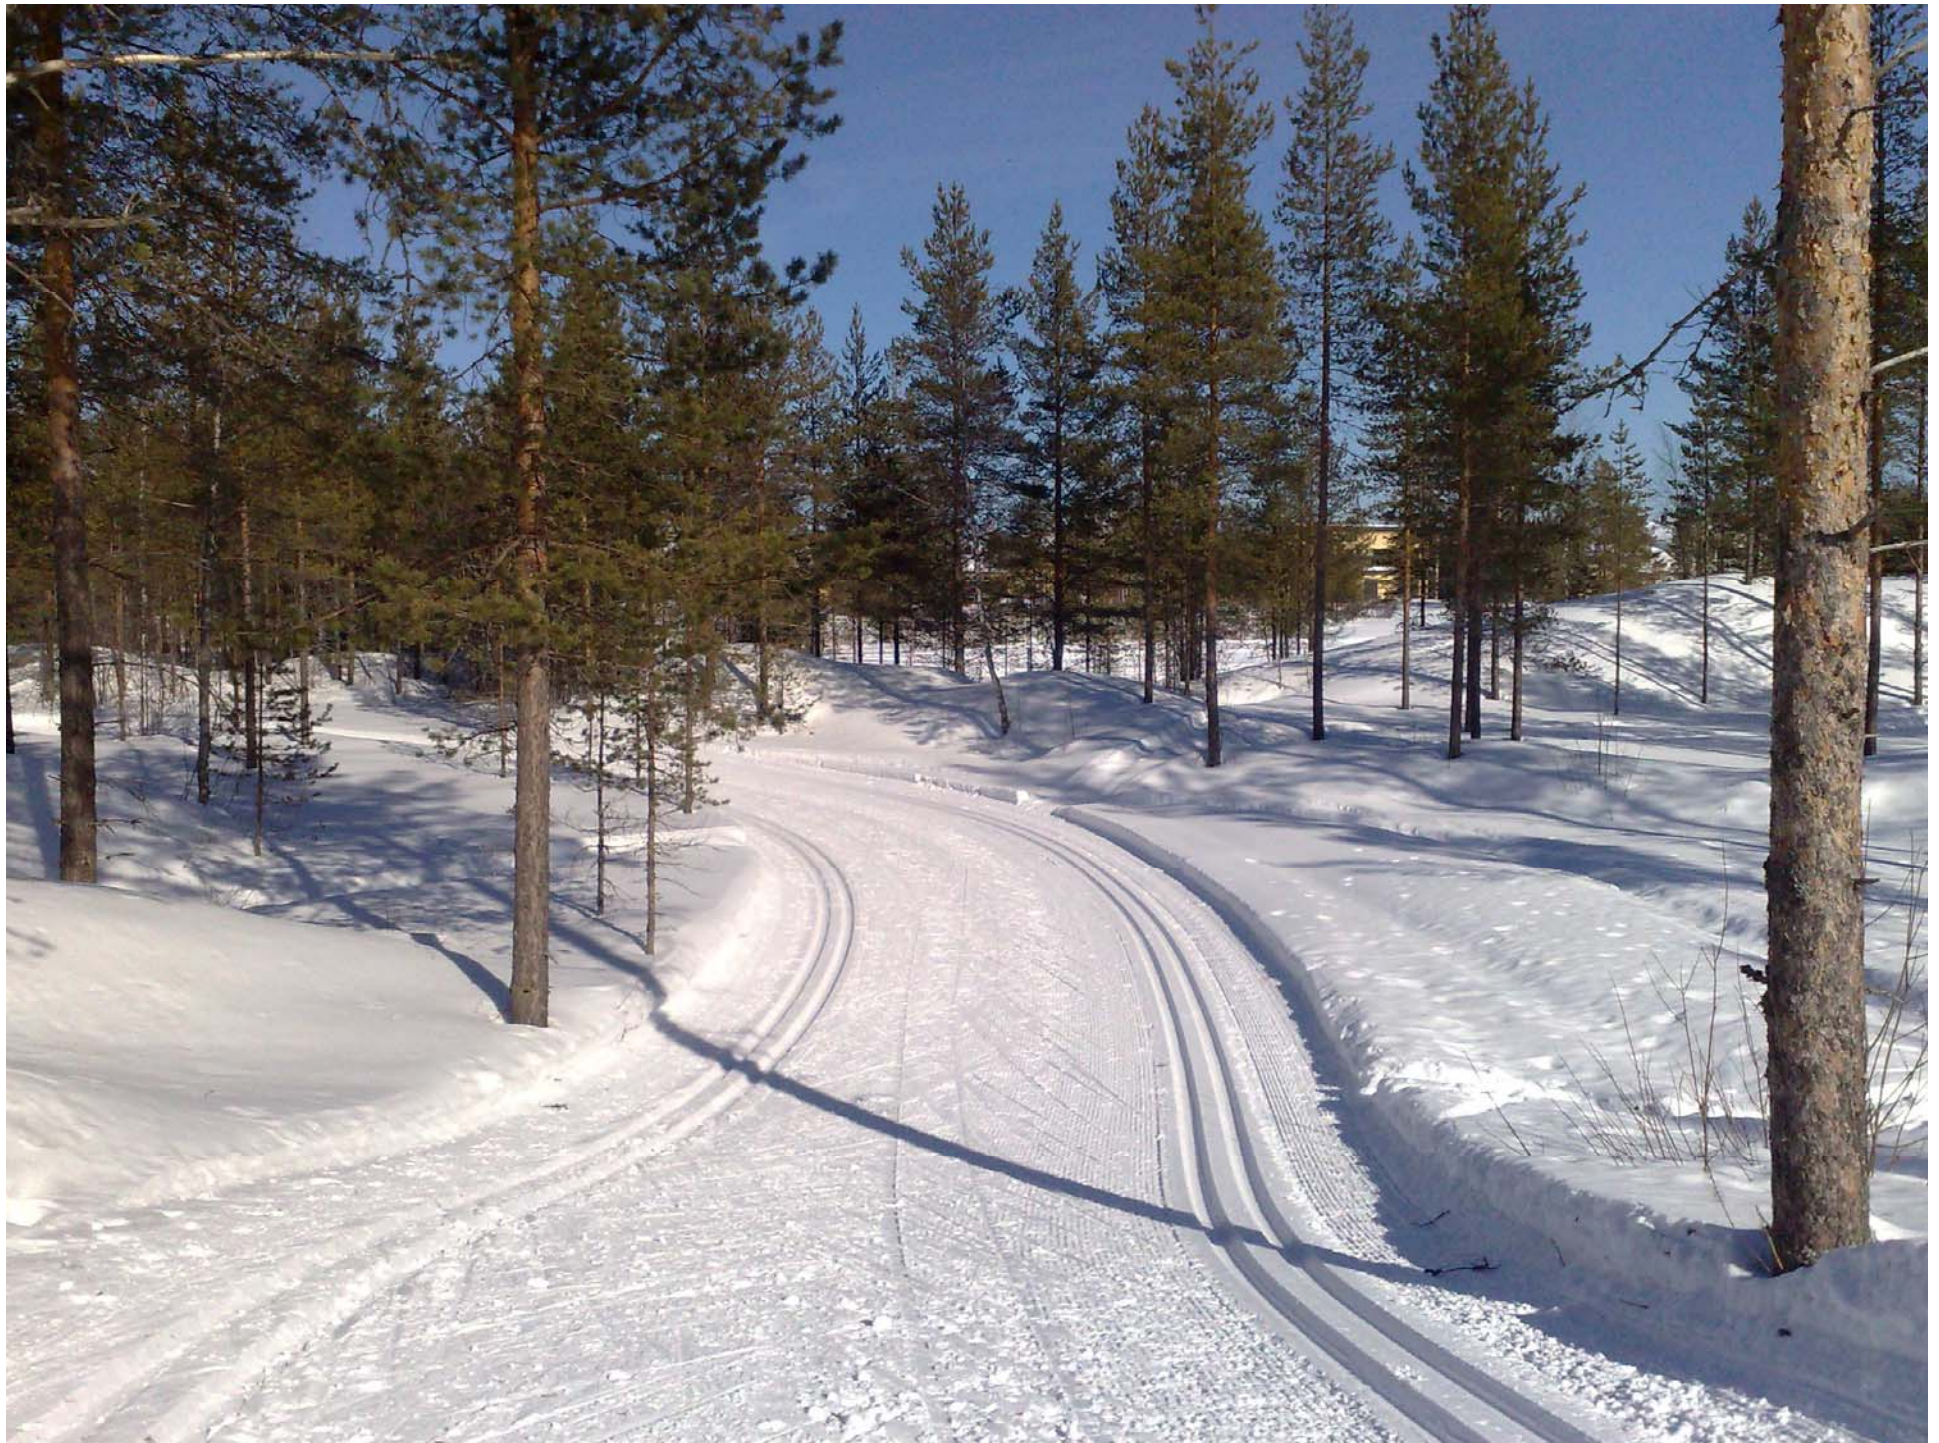

One of the winter sports is skating (for example figure skating, ice hockey, ice ball, team skating)

The pupils of 13 to 16 years of age have only two hours of physical education per week. Many kinds of sports is taught (for exsample ball games, gymnasticks, dance, winter sports)

Skiing track in forest in Jääli (March 2010)
