

Typical buildings in Komenda

Slovenian Comenius team

Our tour starts at our biggest church. This is church of saint Peter and it's very important for our history, because it outside [some monuments, square ...] was re-designed by famous architect Jože Plečnik and it has a big story about it's history back in baroque

Church in komenda
also has few branch
churches.

This one is church of
saint Boštjan in
Moste-

Church of saint Klemen in Suhadole

Church of saint Pavel In Križ

But let's go back in Komenda.

Down,
underneath the
church there is
Glavar's Library
Which's history is
A bit junger that
churches.

it was build by a
priest Peter Pavel
Glavar, back in
1752.

Glavar's hospital.

We also call it Špital .
It was build in 1804 out
of a money that
Priest Glavar left
behind after his death.

On the bottom of the hill we see the **so called "culture home"**
All important events are in this building. And also mayor works there.

This is race track.

It's used for horse racing turnirs which are very popular event in komenda.

This hippodrome is also used for fair which is every year event and very well known.

These are horse stables.

This building has just been open this year.

In there is also few rooms for meetings and simmlar things.

This is our firehouse. It's in komenda, but we also have one in Moste and Križ

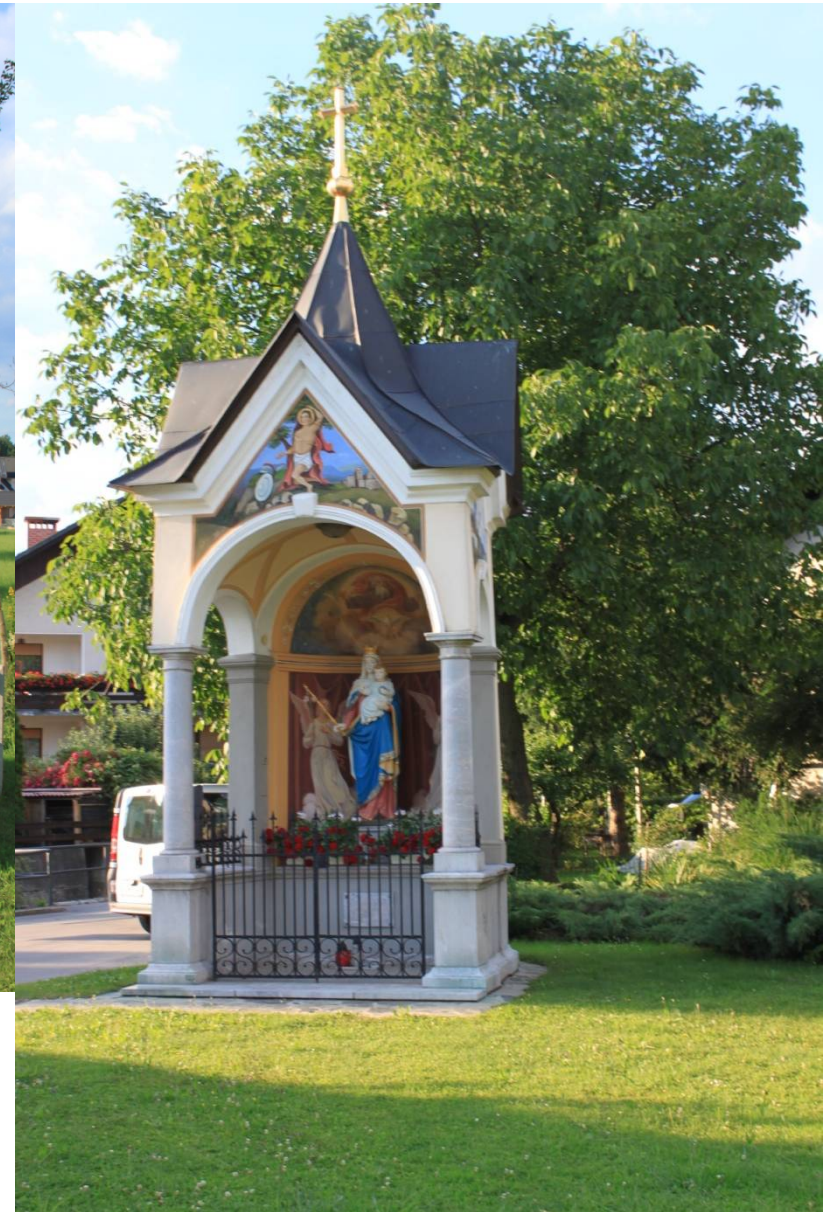

This is our, also quite new, hospital. In this building there is a doctor, dentist and hairdresser.

We also have post office, it's opposite the school's sport hall.

School in Komenda [left building] and sport hall [right building].

In Komenda there is also a lot of religious monuments along roads

School in Moste [for yunger studdents]

There is a gas startion in Moste. We think it would be funny to compare those building that are in our lifes all the time and to see if they change in other countries.

And for the and:
If you will walk in Komenda, be
avare of zebra crosswalks and
traffic lights :D

And be careful, there is
possibility that a horse will cross
your way too.

Have fun and watch out!
