

TREES AND FLOWERS

Slovenian Comenius team

FLOWERS

- Summer snowflake
- In Slovenia, these flowers grows in early spring.

- This is viola

- And this is *Primula vulgaris*

We say, that
these flowers
herald spring.

- We call these flowers "TELOH"
But in Latin we call them "Helleborus"

Pretty, isn't it?

- Daisy

our flower meadow

TREES

- Latin name is *Pinus sylvestris*.
- Is conifer,
- very large tree,
- large up to 40m

Betula pendula

- Grows to 25 meters
- Its steam is white

Juniperus communis

- Low tree

Hedera helix

- Is a woody evergreen vine,
- the total length of the plants may be as high as over 50m.

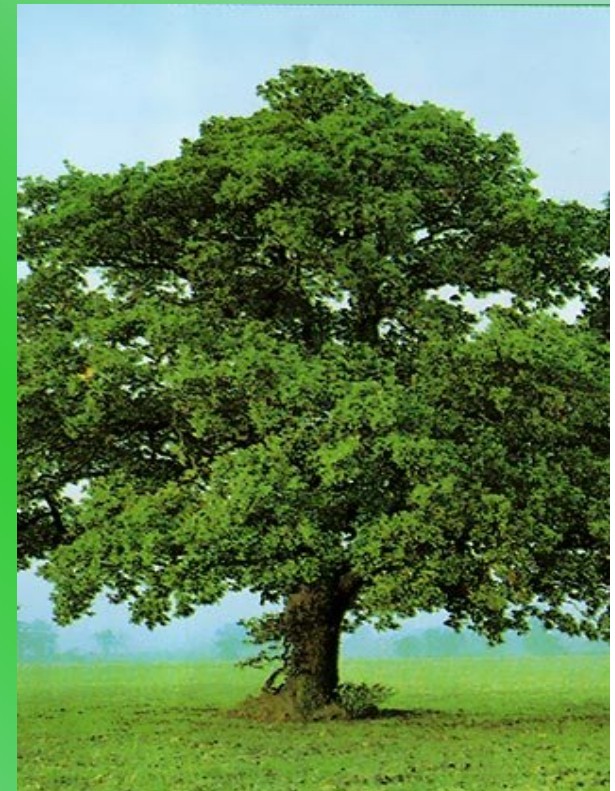

Fagus sylvatica

- Is up to 40m high tree,
- with smooth bark,
- we say that is this tree mother of Slovenian forests

Quercus sp.

Pyrus sp.

Malus domestica

- Is a fruit tree,
- grows in mixed forests,
- grow to 10m.

Tilla

- Has a unique, symbolic, importance for Slovenes
- and is actually a center of social life at all Slavs.
- Has soft wood
